7. Enter Customer Details and Select a Payment option.

8. Apply Coupon Codes.
9. Hit Place Order.

You can now enjoy your delicious meal on wheels, thanks to RailRestro's easy process to book food in train.

Advantages of RaiRestro Train Food App:
From the RailRestro, you can do much more than book food in train. Here are some of the additional features of the RailRestro platform:

PNR Status Check:
PNR Status check is done when you receive a Waiting List (WL) or Reservation Against Cancellation (RAC) in train ticket booking. This is important as a PNR Status Check provides you with the information regarding whether it is going to be confirmed or not.

Live Train Running Status:
Live train running status provides you with the live location of the train and even the platform on which the train will arrive. Since trains in Indian Railways are often delayed, live train running status helps us track the train precisely and protects us from any unnecessary waiting at the platform.

Order Pure Veg Food in Train:
With RailResto you can also order pure veg food in train. The platform is concerned with the food requirements and habits of the customer. Whether you are craving Jian food or pure veg food in train, RailRestro will serve them all right on your train seat.

Conclusion
Indians love to travel on trains. But, when it came to book food on train, they were always left out of options. RailRestro has bridged this gap, bringing quality and restaurant-style food on train.
Besides providing safe, clean and tasty food in train, RailRestro is also known for its punctuality and PAN India reach. If you are travelling on train or planning to do so, book food in train with RailRestro. And you will never be disappointed.
